

Jacob's chronology

* Some of the years relating to **Jacob** are found in cross references relating to **Joseph**. * Years given in Scripture are in **bold type**.

To calculate Jacob's years, when he left home, for example, note the sequence:

1. Start with Jacob's age when he stood before Pharaoh. 2. Note that Joseph at that same time was 39. (30 when made Governor + 7 yrs plenty + 2 yrs famine)
3. Therefore Jacob was 91 when Joseph was born. (130-39 = 91) 4. Joseph was born when Jacob finished his 14 years work for his 2 wives.
5. This means he was 77 when he left home / began working for Laban. (91-14 = 77) References for each step can be found above.
